

As locations continue to open for a majority of our PPD Vendor members, we are ready to start picking up league play. It's going to be a slow process getting back to where we were but we are looking forward to getting the ball rolling!

League play is resuming on June 1, 2020. We are aware not all places are back up and we understand some will not be able to participate.

Players that are not able to finish their leagues have a couple different options...

If you would like to be removed from the league because your team feels uncomfortable going back, we can remove the team if you message the PPD Assistance Line @ 573-205-2601.

If you are only unavailable for a limited time, you can reschedule the matches & will be given extra time at the end of the league to make them up.

REACH OUT to your opponents early during the day to confirm your opponents are available. Anyone that is unable to play, MUST contact opponents to keep from facing "no call no show" penalties.

DRTs remain available as they have been, currently Tuesday through Sunday starting at 4:30pm (CT). Players can start earning points June 1, 2020.

When it comes to the TOC year and our Major Tournaments, we need some more time before we will be able to make any decisions. Major Tournaments including Super Saturday, All-Star Triples, Cricket Singles Challenge & the Qualifiers for the TOC are all postponed until further notice. Once all of the PPD members are back up and running we'll take a look at our projections and figure out a plan going forward.

The TOC Year has been extended from the usual cut-off date of July 14th, but we do not have an exact date set yet.

Extending the TOC year means we won't be ready for the TOC in October. Additionally, I am not really sure we would even be able to host such a large gathering in October, especially with the word of a "second wind" and all those uncertainties. The TOC could be later in the year & a remote TOC may even be necessary.

Thanks for your continued support – we appreciate every one of you!
